This application is in condition for allowance except for the following formal matters:

See below.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

Claims 34, 115-116 are objected to because of the following informalities: In claim 34 line 1, in the preamble, applicants refer to "fouling". However, in the fourth line from the last of claim 34, the term "biofouling" is used. It appears that there is an inconsistency in scope. Page 1 line 1 of the specification suggests that fouling can occur by other than biological means. Applicants do not define the term. On the other hand, applicants define "biofouling organisms" and "biofoul coating" on page 10. It is suggested that the preamble be amended to conform to the body of the claims, i.e., "fouling" should be changed to "biofouling". Appropriate correction is required.
